# OUR STRENGTH IS YOUR SECURITY

We are America's leading manufacturer of hazardous material storage buildings.

We supply hazmat and chemical storage buildings to many industries. Chemical storage buildings are required in manufacturing, agri-chemical management, medical, military and more.

Our buildings are offered in a wide range of sizes and can be configured to suit your individual needs. Our engineering staff is skilled in modular construction. Every US Chemical Storage Building is built to the highest standards to meet or exceed EPA and other code requirements.

## Why Choose Our Buildings?

- No-cost building design and consultation
- No-cost code compliance recommendations
- State approvals available in most states
- Industrial gauge tubular steel construction
- 15 year structural warranty
- Continuously-welded 10-gauge and structural steel sump to provide the most secure and longest lasting construction in the industry.
- UL listed accessories available
- Leak-proof secondary containment sump
- Gravity air flow vents, mechanical ventilation and fire suppression systems available
- FM approval available
- Warnock Hersey approval available
- Standard 5 - 15 feet widths and lengths up to 61 feet; custom sizes also available.
- Our knowledgeable sales staff is ready to assist you and provide you with quotes quickly!

## Our Product Line:

### CHEMLOC™

The perfect choice for storage where fire-rated construction is not necessary. Each model is non-combustible waterproof construction.

### FIRELOC™

The perfect choice for storage of flammables where a fire-rating is necessary. Each model utilizes 2 hour fire-rated, non-combustible, weatherproof construction per UL 263 & ASTM E-119. Designed to be placed within 10-50 ft. of existing structures.

### SUPERLOC™

The perfect choice for storage of flammables requiring a 4 hour fire rating. Each model utilizes non-combustible, weatherproof construction per UL 263 & ASTM E-119. Designed to be placed close to, or even within, existing structures.

### DRUMLOC™

The perfect choice for drums. When your hazardous materials need standard protection, this is the choice for simple, secure storage.

### TURFLOC™

The perfect choice for storage of agri-chemicals used by turf maintenance professionals. Excellent storage for pesticides, fertilizers and herbicides. Manufactured in four standard sizes, this is an affordable solution. Custom sizes available.

## 5 INSTALLATION DETAILS

### Site Location & Proximity To Other Facilities

**EXTERIOR STORAGE** Designed for storage outside your facility. Check one.

- PROXIMITY: (Distance to existing structures)
- 30' OR MORE AWAY:  Non-Combustible
- 10'-30' AWAY:  2-Hr Fire-Rated
- 0' - 10' AWAY:  4-Hr Fire-Rated
- FACILITY ATTACHED:  4-Hr Fire-Rated

**INTERIOR STORAGE** Designed for storage inside your facility.

EXTERIOR ACCESS POINT:  x  x   
(Dimensions: Width x Length x Height)

## 6 STRUCTURAL SPECIFICATIONS

### Building Sizing And Wall Partitions

TOTAL # OF BUILDINGS:  INTERIOR PARTITIONS:

**EXTERIOR DIMENSIONS:**

- x  x
- x  x
- x  x
- x  x

Specify Width x Length x Height.  
Maximum Exterior Dimensions to accommodate your existing facility or available installation zone space.

**INTERIOR DIMENSIONS:**

- x  x
- x  x
- x  x
- x  x

Specify Width x Length x Height.  
Minimum Interior Dimensions to accommodate your storage needs.

**PARTITION OR WALL DIVIDER:**

- WALL:  OR PARTITION:
- WALL:  OR PARTITION:
- WALL:  OR PARTITION:
- WALL:  OR PARTITION:

If your storage facility requires walls or partitions, please designate this by checking one.

**INTENDED USE OF SPACE:**

- 
- 
- 
- 

Specify the use of intended building and/or partitioned space. i.e. Storage, Laboratory, Clean Room...

**Existing or Planned Floor Plans**

YES, PLANS ARE CURRENT AND AVAILABLE:  NO PLANS AVAILABLE:

**Elevated Floor Options**

1. CHOOSE GRATE OPENING: GALVANIZED GRATING:  FIBERGLASS FLOOR GRATING:   
(Use for corrosive applications)
2. 250 LB. STANDARD FLOOR LOAD. IF YOU REQUIRE MORE, PLEASE SPECIFY:  LBS

## 7 INTEGRATED SYSTEMS

### Optional Component Installation

Check all that apply to your storage facility needs.

## 8 SUMP SPECIFICATIONS

### Sump System Depth

- 6" MEETS EPA & FM REQUIREMENTS
- IF 6" OR MORE, PLEASE SPECIFY DEPTH: \_\_\_\_\_ INCHES, AND EXPLAIN:

## 9 VENTILATION SYSTEMS

- PASSIVE VENTILATION OPENINGS (INTAKE AND EXHAUST REQUIRED ON TWO FACING EXTERIOR WALLS)
- FORCED AIR VENTILATION SYSTEM (MECHANICAL VENTILATION)

## 10 CUSTOMIZED CLIMATE CONTROL

- AIR CONDITIONING
- HEATING

PLEASE LIST TEMPERATURES YOU MUST MAINTAIN:

# 11 ADDITIONAL CONSIDERATIONS

## Specify Details

Define any additional compliance considerations applicable to your storage needs.
