WHO WE ARE

A leader in hazmat storage structures since 1993, US Chemical Storage has been the gold standard of engineered solutions for those using flammable, combustible, corrosive, explosive, and other hazardous materials.

We have created buildings for safe storage and use in mixing, dispensing, laboratories, workrooms, and testing areas. For over 30 years, we've kept the world safer for our people, property, and planet.

THE DYNALOC EXPLOSIVE STORAGE SOLUTION

Ensure code compliance with NFPA, IFC, ICC, and other codes to avoid fines, insurance issues, work stoppages, and most importantly, to ensure life and fire safety. You can't be an expert in every detail with your busy schedule, and your business needs your full attention. You have to be constantly aware of your facility's unique material handling needs, flexible requirements, and security issues that your assets require.

Extensive Code Experience

- Decades-long experience in code
- Wide-ranging knowledge of the needs of each industry
- We're the Experts, So You Don't Have To Be

Variety of Solutions

- Type 2 indoor, Type 3 outdoor, Type 3 dayboxes, Type 4 outdoor
- Solutions for high explosives, low explosives, and fuses

High Quality Service and Craftmanship

- We have quick-ship solutions for dangerous material storage & transport
- Hand-welded and hand-crafted wood construction means quality
- You Will Receive a Safe, Efficient, and Code-Compliant Building

We're Your Partner

- Understanding The Complex Problems You Face
- No Chat Bots or AI - a Real Person Is Here To Help You
